At Bishop Martin, there are a wide range of apps and learning platforms that we recommend to help consolidate learning in maths. These are an optional addition to children's weekly homework and logins can be found in reading records.

Reception

Mathseeds is linked to Reading Eggs. Your child can enjoy fun, interactive and rewarding lessons that teach foundational maths and problem-solving skills while nurturing an early love of maths. The focus is on the whole maths curriculum - not just focusing on number.

Year 1

NumBots is a collection of engaging maths games focused on understanding, recall and fluency in mental addition and subtraction, aimed at moving children from counting to calculating. This carefully sequenced programme boosts children's confidence while developing their understanding of mathematical basics.

Year 1 - Year 6

MyMaths.co.uk provides curriculum coverage for Key Stage 1 and 2. It helps develop pupils' confidence and fluency in maths, through hundreds of lessons and self-marking homework tasks, worksheets, and games.

Year 1 - Year 6

Times Tables Rock Stars is a maths programme that takes all the worry out of learning times tables and has a proven track record of boosting children's fluency and recall in multiplication and division.

TTRS provides question-based games automatically adapt to each child's unique learning needs, helping them to recall their times tables in record speed.
